

Chanel

J12 SOFT MINT

DESIGN

The legendary J12, which in 2003 brought white to watchmaking, takes on springlike hues which it showcases in 33 mm and 38 mm diameters. The unidirectional rotating bezel and small seconds hand adopt delicate pastel shades of rose, blue or mint. The 38-mm J12 Soft Mint is driven by a self-winding mechanical movement that displays hours, minutes, seconds and the date. This collector's edition is limited to 1,200 units.
