

Cartier

HYPNOSE

DESIGN

Cartier gives life to a new silhouette among form watches, its feminine curves brought to light by diamonds. The elegance of its ovals is quite simply hypnotic. In white gold or in pink gold, Hypnose is proposed in Two case sizes and five sophisticated executions. Whether discreetly hemmed with diamonds or fully paved, Hypnose stands out for the optical illusions and surprising perspectives it creates. The black lacquer inside the hollow, smooth as silk gold and the contrast of diamonds give hours and minutes, counted by a quartz movement, a uniquely refined depth.
