

Louis Vuitton

## TAMBOUR BLOSSOM SPIN TIME 39.5 MM AUTOMATIC

DESIGN

TECHNICAL

This timepiece - One of the Monogram Flowers precious watches that *Louis Vuitton* is introducing in 2016 - is driven by the Spin Time movement which made its debut on the Tambour watch. Time is displayed by a system of rotating cubes, in this instance paved with diamonds and arranged around the Monogram Flower centrepiece in sculpted mother-of-pearl. The graduated shades of blue are obtained by hand-painting the back of the flower. The space around the flower is entirely covered with diamonds in a snow setting. Around the flange, sapphires alternate with the diamond hour-markers. With this jewellery watch, Louis Vuitton leaves no doubt that complex mechanics have the power to seduce.
