

A. Lange & Söhne

ZEITWERK DECIMAL STRIKE

DESIGN

TECHNICAL

Introduced in 2009, the A. Lange & Söhne ZEITWERK

immediately made its mark with a mechanical jumping numerals display. The

Zeitwerk family now welcomes a new addition, the third with an acoustic

indication. This new model sounds the time on Two pitches, One for the full

hour and one for ten-minute intervals. The two polished steel hammers, visible

on the dial side, are decorated with tremblage engraving. The left hammer

strikes a low note to indicate each full hour while the right hammer sounds a high note every ten minutes. This striking function can be silenced by means of the pusher at 4 o'Clock. Proposed as a 100-piece limited edition, the case is crafted from A. Lange & Söhne's proprietary honey gold.
